Live online ACT prep from the experts.

Research shows that students who study with teachers for the ACT® are more engaged, confident, and prepared. The problem? More than 3 million high school students take the ACT each year and personalized live online test prep hasn't been scalable at an accessible price.

ACT and Kaplan have partnered to change this with **Online Prep Live™** — the affordable college assessment prep program that goes beyond one-size-fits-all tools to provide students with personalized study resources and live online instruction.

- Live sessions taught by Kaplan-certified instructors keep students motivated and engaged
