### COLLEGE ADVISING AT CARDINAL NEWMAN HIGH SCHOOL

As a specialization within our School Counseling department, College Advising helps young people figure out who they are and what they care about.

At Cardinal Newman, our college advising is developmental, educational, relational and process oriented. In concert with today's college admissions, we promote a holistic approach to college planning.

Our process begins in 9th grade with reinforcing programs in 10th grade. Individualized planning begins Junior year and continues through Senior year. Each year in school, students reach objectives toward the goal of college admission that include active involvement in extracurricular activities, career exploration, enrichment opportunities, and research on colleges and scholarships.
